 /My Portfolio

SKILLS

- ❖ HTML, CSS, Javascript
- ❖ React JS
- ❖ MERN Stack (*Intermediate*)
- ❖ React Native (*Basic*)
- ❖ Tailwind CSS
- ❖ Bootstrap
- ❖ Microsoft Office
- ❖ Blender (*Basic*)
- ❖ Adobe Photoshop
- ❖ Figma (*Intermediate*)

EXPERIENCE

- ❖ **Data Analyst | AL ANEES IT Solutions, Kottakkal** (*Feb 2023 - Present*)

At AlAnees IT Solutions, I managed online product listings and pricing using Excel. This included updating databases, adding new products, and adjusting prices based on market trends. Collaborating with sales and marketing, I developed pricing strategies to enhance profitability and improve user experience. Additionally, I streamlined processes by automating tasks with the web development team.

- ❖ **Billing & Accounting | Capital Lights, Alappuzha** (*Feb 2020 - Jan 2023*)

I've worked as a Billing and Accounting Specialist at Capital Lights, where I managed billing processes with a focus on accuracy and efficiency. My responsibilities included handling accounts receivable and payable duties, utilizing accounting software for record-keeping, and collaborating with teams to streamline procedures. I also communicated with clients to address billing inquiries promptly and professionally.

ACADEMIC PROJECTS

- ❖ **Movie App** - <https://github.com/ashifashi2681/movie-app.git>
The Movie App Frontend demonstrates seamless integration of React.js and CSS, creating a polished, responsive web application. It delivers a rich user experience for browsing favorite movies or discovering new releases with visually appealing and intuitive features.
Tools Used :- React JS | CSS | Swiper JS | Aos | React Dropzone
- ❖ **E-Commerce App** - <https://github.com/ashifashi2681/project-ecommerce.git>
The Ecommerce Frontend project demonstrates skill in building attractive and responsive web pages. Using Swiper.js for carousels enhances user engagement and showcases products effectively, creating a seamless shopping experience.
Tools Used :- HTML | CSS | JavaScript | Swiper JS
- ❖ **Food Recipes App** - <https://github.com/ashifashi2681/food-recipe.git>
The Food Recipe Frontend project presents a visually appealing interface built with React.js and Tailwind CSS. It offers a curated selection of recipes, catering to culinary enthusiasts.
Tools Used :- React JS | Tailwind CSS
